

CORPORATE CAPABILITIES STATEMENT

Distributed Information Technologies, Inc. (DIT) provides a full range of **IT Professional Services** and specializes in the delivery of information technology solutions in the functional areas of **Enterprise Asset Management (EAM), GIS & Location-Based Business Intelligence (BI), Mobile Computing and Enterprise Resource Planning (ERP)**. We strive daily to help our clients improve their operational and programmatic productivity and to provide high quality customer service. Based in Arlington, Virginia, DIT has successfully delivered solutions for the Federal Government (DOD & Civilian Agencies), commercial companies and non-profit organizations.

DIT's **IT Professional Services** group supports COTS, GOTS and custom development solutions. Our staff is experienced in utilizing agile development processes while incorporating industry standards and client-specific guidelines throughout the systems development lifecycle. We have the ability to apply relevant aspects of industry standard best practices such as SEI CMMI, PMBOK and ITIL. Our employees hold a range of professional and technical certifications.

DIT's **Enterprise Asset Management Solutions** group has experience across a broad range of asset types including those for Facilities, Federal Real Property, Fleet, Utilities, Transportation Infrastructure, Personal Property, Supply Chain Management and Integrated Logistics. Our team members average 12 years experience in asset management and are IBM® Maximo® Certified Deployment Professionals. Our **GIS & Location-Based BI** and **Mobile Computing solutions** are primarily focused within the EAM arena and span the range of industry leading platforms.

DIT's **ERP Solutions** group focuses in the functional areas of Financials, Cost Management, Business Consolidations and Supply Chain Management. Our team members average 15 years of experience and are SAP® certified.
